GIFSearch — UI Wireframes

Detailed layout blueprints for all views and states of the Giphy Search web application

Views: Desktop · Mobile · Loading · Error · Menu Open **Breakpoint:** 768px

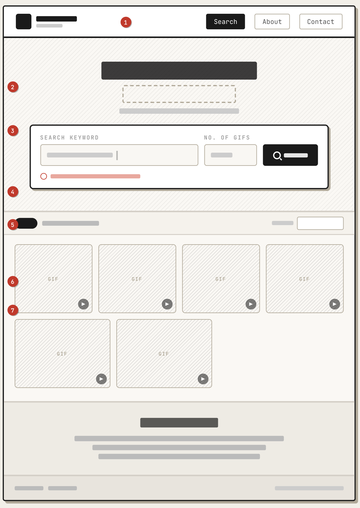
01 DESKTOP VIEW — SEARCH & RESULTS STATE

DESKTOP · 1280PX

1 Sticky Navigation
Fixed at top during scroll. Logo (icon + wordmark) on left, Nav links on right. "Search" shown as active state.

2 Hero Section
Full-viewport minus nav height. Gradient background. Large heading, tagline, search card centred.

3 Search Form Card
White bordered card with shadow. Row layout: keyword input + count input + search button. Error message slot below.



4 Results Count Bar
"Showing X GIFs for: keyword" — count in dark pill badge. Appears after each successful search.

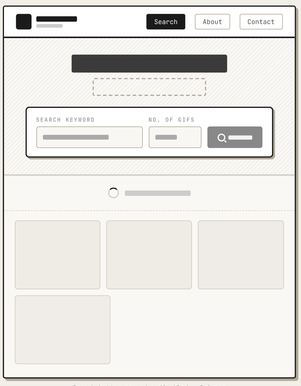
5 GIF Grid
Flex-wrap layout. ~4 cols on desktop. Each card has hatched placeholder + animated play indicator. Hover: scale + shadow.

6 About Section
Alternate background. Centred heading + 2–3 lines describing the app and tech stack. Scrollable via nav anchor.

7 Footer
Dark strip. Left: secondary nav links. Right: copyright text + Giphy API credit link.

02 DESKTOP — LOADING STATE (AJAX IN PROGRESS)

TRIGGERED ON SEARCH CLICK · BUTTON DISABLED



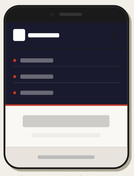
Search button greyed + disabled · Spinner centred · Skeleton placeholder cards pulse with CSS animation

03 MOBILE VIEWS — DEFAULT · MENU OPEN · ERROR STATE

MOBILE · 375PX · DEFAULT

Form stacks vertically. 2-column GIF grid. Hamburger replaces nav links.

MOBILE · HAMBURGER MENU OPEN



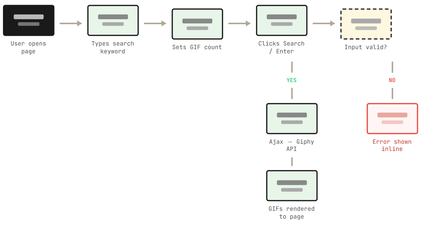
Hamburger icon becomes X. Dropdown nav covers content. Content behind dimmed.

MOBILE · ERROR STATE

Input border turns red. Inline error message appears below inputs. Button disabled.

04 USER INTERACTION FLOW

// FROM PAGE LANDING TO GIF RESULTS — ALL POSSIBLE PATHS



05 COMPONENT SPECIFICATION

COMPONENT	ELEMENT	BEHAVIOUR / NOTES	TECH
Navigation	Sticky bar · logo · 3 links	Stays at top on scroll. Active link highlighted. On mobile: collapses to hamburger that toggles dropdown.	HTML CSS JS
Search Input	Text field	Placeholder text. Focus state highlights border in accent colour. Enter key triggers search. Required.	HTML JS
GIF Count Input	Number field	Default: 12. Min: 1 · Max: 50. Inline on desktop, stacks below keyword on mobile.	HTML JS
Search Button	Button	Triggers Ajax call. Disabled + greyed during loading. Re-enabled on success or error response.	HTML JS
Error Message	Inline div below form	Hidden by default. Shows on: empty input, invalid count, or API failure. Cleared on next valid search.	CSS JS
Loading State	Spinner + skeleton cards	Spinner + text visible during Ajax. Skeleton cards pulse with CSS animation. Hidden class toggled by JS.	CSS JS
GIF Grid	Flex container of cards	Images appended via jQuery. Cleared before each search. ~4 cols desktop / ~2 cols mobile. Hover: scale(1.04).	CSS JS
Results Title	Count + keyword text	Updated dynamically after each successful search. Hidden until first search runs.	JS
About Section	Alt-bg content block	Static content. Accessible via nav anchor #about. Centred text on all screen sizes.	HTML CSS
Footer	Dark strip	Nav links (left) + copyright and Giphy API credit (right). Always visible across all views.	HTML CSS
